BOOKING

Book your group class based on the availability, location and level or your private lesson based on instructors availability

Reason of Cancellation

We understand there are many reasons to do not come to your learning service, we understand London. We work like gyms or monthly rent, we plan ahead so we expect the same compromise from you. If you cancel your booking on time, you respect our job and you get the credit back.

There are going to be times you will feel less motivated, rain, get last minute plans, feel cold, tired, ill, on holidays, or even got injured last minute.

There are many reasons of Cancellation, but if you . That's why we structure our learning service over 2 important aspects:

1. *Cancel your Booking*
2. *Extension of your Service Pass*

We want you to understand the reasons of our policies so we can stay on the same page to avoid any type of misunderstanding.

BOOKING

Other Lessons (Private Lesson)

When you book your lesson, the space is held and blocked so no another student can book that private lesson slot as long you cancel with 24 hours, we allow another potential student to make a last minute booking for that exact time.

Other Students (Group Class)

When you book, your class space is held and blocked. None can book that slot as long you cancel with 5 hours. In 5 hours the student of the waiting list, has enough time to organise his day and come.

Class Quality (Group Class)

The class planification is based on the student list (quantity and level) We cancel if we do not get more than 3 confirmed students. If you are not communicating you are not coming. The class could have been cancelled because we didn't reach the min quantity or the class plan could have been organised differently to provide the best quality.

Anytime you cancel your class or do not come, the time of your pass doesn't stop. Make sure you are aware of it. We only provide extension of the pass if the club/instructor cancelled the class

BOOKING

Reason of Cancellation

Instructor Work

The instructor needs to travel to the class location, modify its personal plans to guarantee the class. The instructor arrives to the lesson/class, and there are no students, no one cancelled on the hours gap. Shall we provide the money back to someone didn't respect the instructor time? We need to guarantee the right conditions to our instructors such time, salary and transport and personal life plans.

Pass Extension

If it's the instructor needs to cancel the class, he/she has 5 hours to cancel the group class and 24 hours for a private lesson. The student is entitled to ask for 1 week extension pass. Unfortunately we can't provide any extension if you didn't manage to come the classes you purchased. We sell different options and you need to purchase the best based on your availability.

SOLUTIONS

CANCEL through your account in GoTeamUp your booking slot. If you realised is too late and you pass the cancellation time, unfortunately we can't provide the credit back.
